

We will be linking topic into our writing and will write a biography, an argument, a set of instructions and write to persuade. We will also be writing newspaper reports and our own Christmas poems.

In Reading we will be reading *Boy in the Tower* by Polly Ho-Yen. We will explore the text developing skills in decoding, explaining, reasoning and inference.

Electricity is our focus in Science. We will explore electrical circuits, draw and identify the symbols used and design and make a dimmer switch.

Our topic this term is Chocolate. We will be finding out how it has developed from the Mayan era to the chocolate we eat today. We will be researching how it is made and developing and designing our own chocolate bars.

Chocolate

Following on from our study of the Mayans, we will be looking into the history of chocolate!

We will be continuing Hockey this term and begin gymnastics. We will be practising jumps, rolls, cartwheels, linking movements and performing.

In English, we will be writing for a range of different purposes including: biographies, letters, instructions, poetry and newspaper reports. These will tie into our topic.

In Maths, we will be finding multiples and factors of number. We will also be multiplying and dividing 1 and 2 digit numbers by 2, 3 and 4 digit numbers using expanded multiplication and short and long division. We will identify square, cubed and prime numbers as well as solving problems using BIDMAS.

In music, we will be beginning rehearsals for the Christmas
