

Brabourne CE Primary School

E-Safety Policy – December 2023

This policy has been prepared with the Christian Value of responsibility foremost – this is a core value of the school and all members of the school community aspire to live by it daily. Governors and staff are responsible for the safety of pupils – and that includes teaching them how to be responsible for themselves in all aspects of their lives.

“Responsibility means that we are all safe and that we look after ourselves, our school and each other”-Year 5 pupil.

This policy is directly linked with the school’s Child Protection, Acceptable Use, Allegations Against Staff, Safer Working Practice, Behaviour, Anti-bullying policy and KCSIE 2023.

Policy Aims

This online safety policy has been written by Brabourne CEP School, building on the Kent County Council (KCC) online safety policy template, with specialist advice and input as required.

It takes into account the DfE statutory guidance “[Keeping Children Safe in Education](#)” 2023 and the school Child Protection and Staff Conduct policies.

The purpose of Brabourne CEP School’s online safety policy is to:

- Safeguard and protect all members of the school community online.
- Identify approaches to educate and raise awareness of online safety throughout the community.
- Enable all staff to work safely and responsibly, to role model positive behaviour online and to manage professional standards and practice when using technology.
- Identify clear procedures to use when responding to online safety concerns.

Brabourne CEP School recognises the huge benefits of technology to the education of our pupils and to preparing them for future life. However, we identify that there are issues classified within online safety and ensuring that our pupils are safe online and that these can be broadly categorised into three areas of risk:

- Content: being exposed to illegal, inappropriate or harmful material
- Contact: being subjected to harmful online interaction with other users
- Conduct: personal online behaviour that increases the likelihood of, or causes, harm.

2. Policy Scope

Brabourne CEP School believes that online safety is an essential part of safeguarding and acknowledges our duty to ensure that all pupils and staff are protected from potential harm online.

We identify that the internet and associated devices, such as computers, tablets, mobile phones and games consoles, are an important part of everyday life.

We believe that pupils should be empowered to build resilience and to develop strategies to manage and respond to risk online.

This policy applies to all staff including the governing body, teachers, support staff, external contractors, visitors, volunteers and other individuals who work for, or provide services on behalf of the school (collectively referred to as 'staff' in this policy) as well as pupils and parents/carers.

This policy applies to all access to the internet and use of technology, including personal devices, or where pupils, staff or other individuals have been provided with school issued devices for use off-site, such as a work laptop, tablets or mobile phones.

Links with other policies and practices

This policy links with a number of other policies, practices and action plans including:

- Educating pupils in the effective use of the internet to research; including the skills of knowledge location, retrieval and evaluation.
- Teaching pupils to be critically aware of the materials they read and shown how to

validate information before accepting its accuracy.

The school will support pupils to read and understand the student AUP in a way which suits their age and ability by:

Vulnerable Pupils

Brabourne CEP School is aware that some pupils are considered to be more vulnerable online due to a range of factors. This may include, but is not limited to children in care, children with Special Educational Needs and Disabilities (SEND) or mental health needs, children with English as an additional language (EAL) and children experiencing trauma or loss.

We will ensure that differentiated and ability appropriate online safety education, access and support is provided to vulnerable pupils. Brabourne CEP School will seek input from specialist staff as appropriate, including the SENCO, Rebecca Simmonds.

- Highlight useful educational resources and tools which staff should use, according to the age and ability of the pupils.
- Ensure all members of staff are aware of the procedures to follow regarding online safety concerns affecting pupils, colleagues or other members of the school community.

Awareness and engagement with parents and carers

Brabourne CEP School recognises that parents and carers have an essential role to play in enabling children to become safe and responsible users of the internet and associated technologies.

The school will build a partnership approach to online safety with parents and carers by:

- Providing information and guidance on online safety in a variety of formats. This will include offering specific online safety awareness training and highlighting online safety at other events such as parent evenings, transition events, newsletters and communications.
- Drawing their attention to the school e-safety policy and expectations in newsletters, letters and on our website.
- Requesting that they read online safety information as part of joining our school, for example, within our home school agreement.
- Requiring them to read the pupil AUP and discuss its implications with their children.

6. Reducing Online Risks

Brabourne CEP School recognises that the internet is a constantly changing environment with new apps, devices, websites and material emerging at a rapid pace. We will:

- Regularly review the methods used to identify, assess and minimise online risks.
- Examine emerging technologies for educational benefit and undertake appropriate risk assessments before use in school is permitted.
- Ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that users can only access appropriate material.
- Due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via a school computer or device.
- All members of the school community are made aware of the school's expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence to members of the community. This is clearly outlined in the AUP and highlighted through a variety of education and training approaches.

7. Safer Use of Technology

Users are made aware that IP addresses linking with the school's Wi-Fi network will be tracked and monitored in reports from Broadband 4 to the Headteacher.

Filtering and Monitoring

The governing body and school leaders have ensured that the school has age and ability appropriate filtering and monitoring in place, to limit children's exposure to online risks.

The governing body and leaders are aware of the need to prevent "over blocking", as that may unreasonably restrict what children can be taught, with regards to online activities and safeguarding. The school's decisions regarding filtering and monitoring has been informed by a risk assessment, taking into account our school's specific needs and circumstances. Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.

The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate. All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard pupils; effective classroom management and regular education about safe and responsible use is essential.

Filtering

The school uses educational broadband connectivity through Broad band 4. The school uses the Netsweeper filtering system which blocks sites which can be categorised as: pornography, racial hatred, violence, extremism, gaming, advertising and sites of an illegal nature. The school filtering system blocks all sites on the [Internet Watch Foundation](#) (IWF) list. The school works with Broadband 4 to ensure that our filtering policy is continually reviewed.

See Child Protection policy for further information: [Child Protection Policy \(brabourne.kent.sch.uk\)](http://brabourne.kent.sch.uk)

Dealing with Filtering breaches

The school has a clear procedure for reporting filtering breaches. If pupils discover unsuitable sites, they will be required to report this to a staff member immediately. The member of staff will report the concern (including the URL of the site if possible) to the Designated Safeguarding Lead and/or

technical staff in the first instance. The breach will be recorded and escalated as appropriate. Parents/carers will be informed of filtering breaches involving their child. Any material that the school believes is illegal will be reported immediately to the appropriate agencies, such as: IWF, Kent Police or CEOP.

When recording a videoconference lesson, it should be made clear to all parties at the start of the conference and written permission will be obtained from all participants; the reason for the recording must be given and recorded material will be stored securely. If third party materials are included, the school will check that recording is permitted to avoid infringing the third-party intellectual property rights.
